zBoost Helps Salesman Stay in Touch With Clients

Challenge

I work from home where the cell service is either sporadic or of such limited signal strength that I miss or have trouble making wireless calls. It's important for me to be able to stay in touch with clients and receive calls reliably while at home.

Solution

We were just on vacation in Cape San Blas, FL and staying in a rental home with NO cell phone reception, except for in 1 bedroom where a zBoost unit was installed. Our entire family has to use Grandma and Grandpa's bedroom, where the zBoost was located, to place their calls the entire time we were on vacation!

I like the concept of boosting cell phone strength at home and have finally found a solution using the YX545 zBoost by Wi-Ex. We are using a window entry cable, so we were able to place the antenna outside without running the cable inside the wall.
