

zBoost® Pro Plus YXC-15K: Cell Booster Kit for Two-Level Home or Office up to 15,000 square feet

The zBoost Pro Plus YXC-15K **cell phone signal boosting kit** increases indoor signal for two levels up to 15,000 square feet in open spaces. The Pro Plus system extends a Cell Zone™ for multiple users and all devices operating on 800 and 1900MHz frequency bands – except those using Nextel/ iDEN. The Pro Plus system is designed for professional installation and **sold only to professional installers.**

Benefits include:

- Increases indoor signal coverage for two levels – **up to 15,000 sq ft**
- Decreases dropped or missed calls
- Increases voice and data transmission speed on cell phones, smartphones, wireless data cards and wireless alarm panels
- Compatible with all US carriers and devices using 800 and 1900MHz (except Nextel/iDEN)
- Extends phone battery life (uses less power when signal is stronger)
- No cradle or connections to your phone
- Maintains network integrity using patented technologies

The Pro Plus YXC-15K includes zBoost amplifier base unit in ruggedized casing (3), power supply (3), high-gain signal antenna (2) and broadcast antennas (2), attenuators and mounting hardware.

	YXC-15K	YXC-20K	YXC-40K
Coverage Area	Up to 15,000 square feet	Up to 20,000 square feet	Up to 40,000 square feet
Frequencies	824-894 MHz, 1850-1990 MHz		
Cellular Technologies Supported	GSM, CDMA, GPRS, EDGE, 1xRTT, EV-DO, HSPA+		
System Certifications	UL, FCC Parts 15 and 22 and 24, Industry Canada		
Interior antenna Systems	2	4	8

Product coverage is limited by setup and antenna isolation. Handles all PCS or CEL protocols and includes multiple patented technologies to provide low-cost coverage while continually adapting to signals to prevent interference and remain transparent to the wireless network. Provides an indicator if the antennae are positioned improperly, but will NOT suffer damage or interfere with the Carrier Network.
